## 1. Project Backtround

This report summarizes data collected by the National Center for Employee Ownership (NCEO) between February 18 and March 24, 2009. A total of 317 companies, all of which sponsor ESOPs, completed valid questionnaires.

## Questionnaire

The 29-item online survey guaranteed companies anonymity and asked respondents three types of questions:
I. Company background information (company size, filing status, ESOP details, etc.)
2. Core compensation data for six executives (CEOs, COOs, top finance/accounting executives, top sales/marketing executives, top manufacturing/products/services vice presidents, and top divisional vice presidents)
3. Compensation mechanics (drivers of incentive pay, vesting, perquisites, and determining executive compensation)

The NCEO invited approximately 2,000 people to complete the survey on behalf of their companies. Professionals who work with ESOP companies also distributed invitations to the questionnaire. A total of 488 questionnaires were started although 171 questionnaires were excluded from the analysis. Most questionnaires were excluded because their surveys were not completed in sufficient detail, although some were excluded because they are not currently sponsoring ESOPs.

## Participating Companies

Forty-four percent of the valid questionnaires are from companies with 100 or fewer employees, and the same percentage have IOI to 500 employees. A third (33\%) have revenue over $\$ 50$ million, and a fifth ( $20 \%$ ) have revenue under $\$ 10$ million. The three most common industries are manufacturing, wholesale, and construction. The greatest number of firms have headquarters in the Midwest. The respondents are almost exclusively from privately held companies (99\%).

Companies with minority ESOP ownership constitute 34\% of the database, and 47\% are 100\% owned by their ESOPs. Forty percent formed their ESOPs in 2001 or later, and $39 \%$ have ESOPs from 1995 or earlier. A majority (71\%) are S corporations.

## 2. This Report

## Customization

A report similar to this one will be created for your company based on a conversation with Loren Rodgers of the NCEO. Customization consists of choosing a screening variable and a breakdown variable.

The screening variable determines which companies are included in the analysis, i.e., which companies are "screened in" and which are screened out.

The breakdown variable is used to break the dataset into subgroups.

## Reading the Report

Section 3 is the heart of this report, the core compensation data. It includes base compensation, total compensation, stock-based compensation, incentive compensation, and retirement plans.

Section 4 describes who owns company shares, both currently and prior to the ESOP.
Section 5 of this report describes the companies and ESOPs that provided the data in this report.

Section 6 covers company choices regarding compensation mechanics, such as perquisites, vesting procedures, and drivers of incentive pay.

Section 7 contains the complete questionnaire.
Throughout this report we use these terms consistently:
The "full database" means all 317 companies that responded to the survey.
The "dataset" is the subset of the database selected for inclusion in this analysis (based on the screening variable).

These two may be identical if your company did not screen out any companies for this analysis.

## Summary Table

This table shows median base compensation and median total compensation for each of the six executives in this report's dataset.

## Compensation Tables

Detailed compensation data for the six executives is in the six compensation tables on pages 8 to I3. Excerpts from a sample of table I (Chief Executive Officers) are used below as an illustration to help you interpret the data. The data in these excerpts is for illustration only: they do not contain data relevant to this report.

The first column in each table, "Dataset," has data for all companies included in this analysis. The following columns break the dataset down into subgroups.

Each table has four subtables: A, B, C, and D.
Subtable A provides the base compensation and the total compensation for each officer. It lists the number of companies that provided data for the CEO (or other executive for later tables). In the table below, for example, there are 3II companies that provided data on the compensation of their CEOs. For the first subgroup, companies in the West, 47 provided data.

The table also shows quartiles. For the whole dataset, the median (or 50 th percentile) CEO received $\$ 200,000$ in base compensation and $\$ 292,000$ in total compensation. The 25th percentile for CEO base compensation is $\$ 150,000$ for the dataset, $\$ 152,500$ in the West, and $\$ 129,750$ in the Midwest.

| A. Compensation | Dataset | A. West | B. Midwest |
| :--- | :--- | :--- | :--- |

"Total compensation" is the sum of base compensation and the six types of incentive and stock-based pay listed in subtable B.

Subtable B shows how many companies grant six forms of incentive and stock-based pay. For companies that grant such awards, it shows quartiles describing award sizes.
B. Incentive and stock-based pay

| 1. Cash incentive pay |  | \$33,500 |  | \$55,000 |  | \$36,581 |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | 222 | \$100,000 | 31 | \$100,000 | 88 | \$96,079 |
|  | (71\%) | \$204,500 | (66\%) | \$250,000 | (70\%). | \$226,279. |
| 2. Deferred compensation | $\begin{gathered} 48 \\ (15 \%) \end{gathered}$ | \$19,650 |  | * | 25 | \$15,300 |
|  |  | \$58,000 |  |  |  | \$56,000 |
|  |  | \$205,000 | (9\%) |  | (20\%). | \$176,000 |
| 3. Stock options | $\begin{gathered} 10 \\ (3 \%) \end{gathered}$ | \$32,20 |  |  | $\underset{(1 \%)}{1}$ | * |
|  |  | $\begin{gathered} \$ 96,904 \\ \times 1938 \end{gathered}$ |  |  |  |  |
| 4. SARs |  | Num | $\begin{gathered} \text { I } \\ (2 \%) . \end{gathered}$ | * |  | \$32,783 |
|  |  | \$20500 |  |  | 6 | \$62,890 |
|  |  | 221,000 |  |  | (5\%) | \$185.750 |
| 5. Restricted stock | ${ }_{(3 \%)}^{8} \mathrm{~F}$ | \$25,000 |  | * | $2$ | * |
|  |  | $\begin{array}{r} \$ 70,000 \\ \$ 196,250 \end{array}$ | $\underset{(4 \%)}{2}$ |  |  |  |
| 6. Phantom stock |  | \$23,500 |  |  |  | \$21,000 |
|  | 18 | \$85,170 | 2 | * | 8 | \$47,000 |
|  | (6\%) | \$443,670 | (4\%) |  | (6\%) | \$174,074 |

Based on this subtable, 222 CEOs received cash incentive pay, representing $71 \%$ of all CEOs for whom data is available. Considering only those CEOs who receive cash incentive pay, the 25 th percentile is $\$ 33,500$ of cash incentive pay, the 75 th percentile is $\$ 204,500$, and the median (or 50 th percentile) is $\$ 100,000$. Median incentive pay is slightly higher in the West and somewhat lower in the Midwest.

Remember, the CEOs who did not receive any cash incentive pay are not included in these quartiles. The $\$ 100,000$ median in line I above does not mean that the CEO in the median ESOP company receives $\$ 100,000$ of cash incentive pay. It means that the CEO in the median company that provides cash incentive pay receives $\$ 100,000$ worth.

Subtable C lists the combined value of all stock-based compensation received by the CEO. It includes only CEOs who receive one or more stock-based award (lines 3 to 6 in subtable $B$ ).
C. Stock-based plans (combined)

| Received any stock-based awards | $\mathbf{4 7}$ | $\$ 30,000$ |  |  |  |  |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: |
|  | $\$ 50,000$ |  |  |  |  |  |
|  | $(15 \%)$ | $\$ 11,800$ | $\mathbf{5}$ | $\$ 17,0051$ | 16 | $\$ 74,500$ |
|  | $\$ 300,000$ | $(11 \%)$ | $\$ 300,000$ | $(13 \%)$ | $\$ 238,667$ |  |

Subtable D covers qualified retirement plan contributions. It includes contributions to the ESOP and contributions to all other qualified plans. As in prior subtables, it indicates how many CEOs receive ESOP contributions and contributions to other retirement plans.
D. Qualified retirement plan contributions

The ESOP contribution was calculated based on reported contribution as a percent of payroll, CEO compensation, statutory limits, and company reports about executive excluded from the ESOP.

## Note on sums:

Items that look like they should be the sum of other items are not. For example, subtable C reports the total of the stock based plans from lines 3 to 6 of subtable B. The sum of those lines does not equal the figure in $C$ because the amount in $C$ includes $C E O$ s who are not included in some of the lines of $B$.

Example: 30 CEOs each have one form of stock-based award: 10 of them receive $\$ 100,000$ in stock options each, 10 receive $\$ 100,000$ in SARs, and 10 receive $\$ 100,000$ in restricted stock. The median for lines 3, 4, and 5 in B is $\$ 100,000$, and the median for $C$ is $\$ 100,000$ as well.

|  |  | \$476,500 |  | \$285,953 |  | \$404,250 |  | \$572,400 |  |  |

"Total compensation" is base compensation plus incentive, deferred, and stock-based pay, as described in lines I to 6 of subtable B below. It does not include retirement contributions.

## B. Incentive and stock-based pay

Percentiles apply only to the companies that provide a given type of award. For example, of the 5I companies in this dataset, 37 companies, or $73 \%$, provide their CEOs with cash incentive pay. Among those 37 companies, the median award was $\$ 100,000$, and the range from 25 th to 75 th percentile was $\$ 33,000$ to $\$ 200,000$. Companies that do not make cash incentive payments are excluded.

|  |  | \$190,000 |  |  |  |  |  | \$200,000 |  |  |

This subtable only reports on the 14 companies that provide their CEOs with one or more stock-based awards (numbers 3 to 6 in subtable B). $\$ 55,548$ is the median for the 14 CEOs who received one or more stock-based awards.

Percentiles apply only to the companies that provide a given type of award. For example, of the 30 companies in this dataset, 21 companies, or $70 \%$, provide their CEOs with cash incentive pay. Among those 21 companies, the median award was $\$ 95,000$, and the range from 25th to 75 th percentile was $\$ 18,000$ to $\$ 163,000$. Companies that do not make cash incentive payments are excluded.

"Total compensation" is base compensation plus incentive, deferred, and stock-based pay, as described in lines I to 6 of subtable $B$ below. It does not include retirement contributions.

Percentiles apply only to the companies that provide a given type of award. For example, of the 29 companies in this dataset, 22 companies, or $76 \%$, provide their CEOs with cash incentive pay. Among those 22 companies, the median award was $\$ 45,000$, and the range from 25 th to 75 th percentile was $\$ 11,250$ to $\$ 98,000$. Companies that do not make cash incentive payments are excluded.

[^5]Sample ESOP Executive Compensation: Custom Report

## 4.Ownershin of Shares

The following three tables show the percentage of company shares owned by each of the six executives. The first table shows the number of shares directly owned as a percentage of outstanding shares. The second is the percentage of shares owned directly plus deemed owned shares (in the form of options, SARs, restricted stock, or phantom stock) as a percentage of fully-diluted shares. The third table shows the percentage of the company owned by each officer prior to the establishment of the ESOP.

As with the six tables above, the "dataset" column in these tables is all the companies included in this analysis.

In the dataset used in this report, 4I CEOs (or 80\% of the total for whom data is available) directly own shares in their companies. Among those who own shares, the median percentage of shares owned is $7 \%$ for the full database and $9 \%$ for those in subgroup "A. Up to $\$ 10 \mathrm{~m}$.

* When fewer than five companies provide usable data, percentiles are unreliable and unduly expose individual companies. We omit percentiles for cells with fewer than five respondents.

Table 9: Diluted Ownership
What percentage of fully-diluted shares is owned by each of the following? (Consider stock options, stock appreciation rights, phantom stock, shares that are owned directly, restricted shares, and ESOP shares.)

Considering all stock and stock-linked benefits, 40 CEOs (or $78 \%$ of the total for whom data is available) either directly own or are deemed to own shares in their companies. Among those who own or are deemed to own shares, the range from 25th to 75th percentile is $3 \%$ to $26 \%$ of fully-diluted shares.

* When fewer than five companies provide usable data, percentiles are unreliable and unduly expose individual companies. We omit percentiles for cells with fewer than five respondents.

## 5. Gompany and EsOP Characteristics

The charts below show the results for the II survey questions that describe the companies and the characteristics of their ESOPs.

In each table, the first column ("Full Database") shows the results for all 317 companies that responded to the questionnaire. The total for this column will not necessarily be 317: some companies did not answer some of the questions.

The second column ("Dataset") is the results for all companies included in this custom report, i.e., the subset of companies that you selected for inclusion. The other columns show the results for the companies within the dataset, broken down into subgroups.

These tables do not follow the order in the questionnaire. See section 7 for the questionnaire and the exact wording of these survey items

Officers
Set by team of lawyers, bankers, previous owners, and ESOP trustee as part of ESOP transaction agreement

## 7.Questionnaire

## 2009 ESOP Executive Compensation Survey

February 18, 2009

Welcome to the NCEO's 2009 executive compensation questionnaire for ESOP companies.

By filling out this questionnaire, you will be contributing to a unique resource and the first update of the NCEO's executive compensation data since the inaugural survey in 2005, when over 200 companies completed the questionnaire. You will also receive a pre-publication summary of the data if you so request.

## All of your answers to this questionnaire will be completely

 confidential. No specific information will be released to anyone outside the NCEO on a given company's practices. The final question in the survey asks for your email address so we can email you the advance copy of the results; email addresses will then be permanently removed from the database.Page 1 asks for background about your company and ESOP. Page 2 asks about your executive compensation.
Page 3 asks about compensation mechanics and the process you use to determine executive compensation.

Many of the questions ask you to fill in compensation data for various executives. An estimated amount is acceptable. If there is more than one person in a category, please answer for the highest paid person in that category.

You do not have to be an NCEO member to take the survey. More information about us can be found at www.nceo.org.

The questionnaire will be open until March 13 at 5:00 PM Pacific time.
Contact Loren Rodgers (LRodgers@nceo.org; 510-208-1307) with questions or concerns.

## Page 1: Company and ESOP Background

1. How many full and part-time employees do you have? (choose one answer)
2. Which of the below best describes your industry? (choose one answer)
3. Where is your company's headquarters? (choose one answer)
4. What was the approximate average annual change in your stock value over the past five years? (choose one answer)
5. When did you start your ESOP? (enter the year)
6. What percentage of the company's shares is owned by the ESOP? (choose one answer)
7. Is your company an S or Corporation? (choose one answer)
8. Is your company's stock traded on a stock a stock exchange? (choose one answer)
9. What was the dollar value of your company's revenues in the most recently completed fiscal year? (choose one answer)

## Page 2: Executive Compensation

## Cash Compensation

Consider all cash compensation granted in the most recently completed fiscal year. Consider only amounts granted during that year: exclude payments made on compensation granted in earlier years. Provide all answers in dollars.

| 11. Cash incentive pay <br> Count all forms of dollar- <br> denominated incentive <br> compensation payable in the <br> most recently completed year, |  |  |  |  |  |  |

| such as bonuses and profit <br> sharing. Do not count deferred <br> compensation or equity-linked <br> compensation (stock <br> appreciation rights, phantom <br> stock, etc.) |  |  |  |  |  |  |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- |
| 12. Deferred compensation <br> (excluding the ESOP) |  |  |  |  |  |  |
| 13. Qualified retirement plans <br> (excluding the ESOP) |  |  |  |  |  |  |

## Stock options and stock appreciation rights

For stock options and stock appreciation rights (SARs), include the total fair value of the grants made during the last fiscal year, not just the amount expensed during the fiscal year. "Fair value" is the value calculated for accounting purposes using a pricing model such as Black-Scholes or a lattice model. Provide all answers in dollars.

If you do not know or cannot find the fair value, you can use one-third of the grant price as an estimate.

|  | CEO/ <br> Pres | COO | Top <br> Fin/ <br> Acctg <br> Exec | Top <br> Sales/ <br> Mktg <br> Exec | Top <br> Mfg/Pr <br> oducts <br> / <br> Serv | Top <br> Divisio <br> nal VP |

| VP |  |  |  |  |  |  |
| 14. Stock options <br> (SARs) |  |  |  |  |  |  |

## Restricted Stock and Phantom Stock

Use the value of the shares (based on the grant date face value) that were granted during the most recent fiscal year. Provide all answers in dollars.

|  | CEO/ <br> Pres | COO | Top <br> Fin/ <br> Acctg <br> Exec | Top <br> Sales/ <br> Mktg <br> Exec | Top <br> Mfg/Pr <br> oducts <br> / <br> Serv | Top <br> Divisio <br> nal VP |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- |
| 16. Restricted stock, restricted <br> stock units, performance shares |  |  |  |  |  |  |
| 17. Phantom stock |  |  |  |  |  |  |

NOTE: For this questionnaire, "restricted stock" means shares of stock that are granted to employees subject to forfeiture until certain restrictions have been met, generally tenure or performance.

## ESOP

18. What percentage of payroll did your company contribute to the ESOP in the most recently completed fiscal year? (If the contribution has not yet been made, please estimate.) (enter the percentage)
19. Please indicate which of the following officers are NOT participants in the ESOP. (check all that apply)

## Accumulated Assets

20. What percentage of outstanding shares is owned by each of the following? (enter the percentage for each)

- CEO/President
- Chief Operating Officer
- Top Finance/Accounting Executive
- Top Sales/Marketing Executive
- Top Manufacturing/Products/Services Vice President
- Top Divisional Vice President
- Other officers
- Non-employee directors
- All other employees
- Outsiders (non-directors, non-employees)

Consider shares that are owned directly, restricted shares, and ESOP shares. Please answer with a number from 0 to 100 showing the percent of all outstanding shares. Numbers should add to 100.
21. What was the total equity value of your company at the end of the most recently completed fiscal year? (enter the dollar figure) (NOTE: approximate values are acceptable.)
22. What percentage of fully-diluted shares is owned by each of the following? (enter the percentage for each)

- [same list as item 20]

Consider stock options, stock appreciation rights, phantom stock, shares that are owned directly, restricted shares, and ESOP shares. Please answer with a number from $\mathbf{0}$ to $\mathbf{1 0 0}$ showing the percent of all outstanding shares. Numbers should add to 100.
23. Prior to the ESOP, what percentage of outstanding shares was owned by each of the following? (enter the percentage for each)

- CEO/President
- Chief Operating Officer
- Top Finance/Accounting Executive
- Top Sales/Marketing Executive
- Top Manufacturing/Products/Services Vice President
- Top Divisional Vice President

Add in any shares purchase at fair market value after the ESOP was established. Please answer with a number from 0 to 100 showing the percent of all outstanding shares.

## Page 3: Compensation Mechanics and Process

24. Please indicate how incentive pay is issued. (Check all that apply.)

- Individual targets
- Department or division targets
- Corporate profit
- Change in stock price
- Other (please specify)

25. Are most of your cash incentive awards subject to vesting? (Check one.)
26. In general, are most of your stock or stock equivalent awards subject to vesting? (Check one.)
27. Please indicate which, if any, of the following perquisites you provide your CEO. (Check all that apply.)

- Top-hat retirement plans
- Life insurance
- Personal travel/transportation
- Entertainment

D Disability insurance

- Other

28. Please indicate which, if any, of the following perquisites you offer to any other top executive as defined in the questions above.
[Same list as in 27.]

## 8. Acknowledgements

Generous support from Bank of America made this research possible.
The following ESOP service providers made this year's project more successful than the 2005 survey by collectively securing 46\% of survey respondents: Willamette Management Associates; Principal Financial Group; ComStock Valuation Advisors; Atlantic Management Company; RSM McGladrey Retirement Resources; ESOP Services; Gallop, Johnson \& Neuman; Steiker, Fischer, Edwards \& Greenapple; Bank of America; Morgan Stanley; CroweHorwath; TeamsWork; and Crenshaw Dupree \& Milam.

Loren Rodgers gratefully acknowledges the input of the following people, whose insight vastly improved the questionnaire and report: Mike Klingenberg (Scot Forge), Cindy Turcot (Gardeners Supply), Jim Steiker (SES Advisors), Nathan Perkins (Morgan Stanley), and Mike Sessions (Pizzagalli Construction). My colleagues at the National Center for Employee Ownership Christine Zwerling, Pam Chernoff, Scott Rodrick, and Corey Rosen provided their standard outstanding level of thorough review, creative insight and helpful comments.

The NCEO independently performed, administered, and analyzed the data in this report.

The NCEO thanks Bank of America for supporting this research.
